Notification Waiver Determination

Redwood Services Group – All IT Australia

Acquisition	Redwood Services Group Australia Pty Ltd (**Redwood**) applied for a notification waiver in respect of its proposed acquisition of 100% of the share capital in All IT Australia Pty Ltd (**All IT Australia**), as described in the transaction documents provided as part of the application (the **Acquisition**).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the *Competition and Consumer Act 2010* (Cth) that the Acquisition is not required to be notified.
Date of determination	24 June 2026

Parties to the Acquisition	The acquirer, Redwood, through its subsidiaries, supplies managed IT services nationally to small-to-medium businesses and enterprises, including IT monitoring, system maintenance, IT helpdesk support, cybersecurity services and data storage, backup and disaster recovery services, cloud services resale and hardware resale. The target, All IT Australia supplies managed IT services, including IT systems management, monitoring and support, information and cybersecurity, data backup and disaster recovery, and cloud resale to small-to-medium business and enterprises predominantly located in New South Wales, Victoria and Queensland. The parties overlap in the supply of managed IT services.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the **ACCC**) has considered the information provided with the notification waiver application and had regard to the factors in section 51ABV(2)(b) of the *Competition and Consumer Act 2010* (Cth) (the **Act**). Based on the information provided in the application, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition. In particular: a. The parties' combined share in the supply of managed IT services to customers in Australia is low and the increase in share of supply arising from the Acquisition would be small. b. There are numerous alternative suppliers of managed IT services to customers in Australia. The ACCC also had regard to Redwood's separate notification waiver application in relation to its proposed acquisition of Newtrend

	I.T. Specialists Pty Ltd (WA-60024), which the ACCC assessed concurrently. The ACCC has also had regard to the likelihood that, if the Acquisition were put into effect, the notification thresholds determined under section 51ABP(1) of the Act would apply. While the ACCC considers that the notification thresholds are likely to be met, given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's interim guidance on notification waivers and merger assessment guidelines.

Determination made by Commissioner Williams pursuant to a delegation under section 25(1) of the Act
